

## *Spectator Plan*

Spring 2021

George School is allowing spectators for the Spring athletic season. To help manage the total number of fans and provide safety for the community the following guidelines and protocols will be in place:

- Only George School Parents or Guardians of a spring athlete can attend a home game held on George School's campus.
- Each family will be limited to two (2) people at each event.
  - The family will be issued a parking pass from the school that will be used when entering the campus for the specific sporting event.
  - Families will need to use the Farm Drive entrance for entering and leaving the campus.
  - They will park in the lot across from the Fitness and Athletics Center (FAC). Families cannot park or drive anywhere else on campus.
- Self-Screening
  - Parents and Guardians will be asked screening questions at the gate when they pull into campus.
- Mask Wearing on Campus
  - All spectators are expected to wear masks (covering their mouth and nose) from the moment they exit their vehicle until the time they return to it.
- Spectators are not permitted to bring food or drink for the students/teams. We also ask that spectators do not bring food to eat on the sideline.
  - There will not be water or drinks at the games. Please bring your own fluids.
- Arrival Time and Departure
  - For the safety of the community and the spectator, fans for an event should not arrive more than 10 minutes before a start time for a home game.
  - After a game is complete spectators are not permitted to visit with the team. Instead, fans need to walk to their vehicles and leave campus. We ask that spectators exit campus as soon as traffic permits following a game.
- Spacing of Spectators at an Event

- There will not be bleachers or benches for spectators near the playing fields. Spectators will need to bring their own chairs or blankets to watch an event.
- The bleachers on the turf field will not be open for spectators. Instead, they will be used for a visiting team.
- Spectators should not sit or stand on the same side as the team bench areas.
- Spectators should space themselves out from one another - minimal of 6 feet should be between families and other fans.
- Bathroom Use
  - George School needs to ask visitors to restrict the use of indoor facilities on campus. The School will provide outdoor bathrooms for visitors throughout the spring. o Port-o-potties will be located in two locations.
- Between the Upper Tennis Courts and Farm Drive nearest the Boys' Lacrosse field. Near the Girls' Lacrosse Field.
- If a visitor is watching a game at the Turf/Track Stadium, they will be directed to Alumni Gym.
- Student-Athlete Injury
  - In the event of an injury, the treating athletic trainer will meet with the parent/guardian attending the game in a location away from the field. Please do not approach an athletic trainer while they are treating an injured athlete. They will follow-up with the parent/guardian after their evaluation is completed.
