THAT'S HELPFUL BUT HARDLY THE FULL STORY, BECAUSE NOTHING GETS REDUCED TO NUMBERS HERE—EVEN OUR AWESOME MATH PROGRAM.

<p>BEYOND THE NUMBERS</p> <p>Thanks to our diverse student body, you'll learn about the world from your peers as well as our global curriculum.</p> <p></p>	<p>More than educated and experienced, our teachers view mentoring students as their calling. And speaking of calling, we all go by first names, reflecting our commitment to equality and community.</p>	<p>How big is 240 acres? Big enough to lose yourself (figuratively) in the drop-dead gorgeousness.</p> <p></p>	<p>There are enough sports and arts for everyone to participate, and we all do. Maybe you'll love soccer or equestrian (yes, we have horses), wind ensemble or woodworking.</p> <p></p>	<p>The challenging IB program can lead to college credit and admission to the most selective universities worldwide. We also offer AP, electives, and lots of other courses to make your GS journey your own.</p>
