

HOW  
Can I Be  
Challenged  
by the IB  
@ GS?

GEORGE  
SCHOOL

**SINCE 1985, GS  
HAS BEEN A CERTIFIED AND  
LICENSED INTERNATIONAL  
BACCALAUREATE (IB)  
SCHOOL—ONE OF ONLY A  
FEW BOARDING SCHOOLS  
IN THE COUNTRY TO OFFER  
THE PROGRAM.**

**IB is a globally recognized program that develops “future-ready” skills by teaching students to think critically and solve complex problems.** The IB Diploma includes rigorous courses across six broad subject areas. Students also study Theory of Knowledge, reflecting on the nature of knowledge and gaining a greater awareness of personal and ideological assumptions, while developing an appreciation for the diversity and richness of cultural perspectives.

Successful completion results in a second, globally recognized diploma.

**As a residential community, GS is one of few schools in the US to offer a “lived IB” experience.** Creativity, activity, and service components add to a 360-degree approach that’s as well-rounded as you are.

**And, you don’t have to pursue an IB diploma—most GS students take at least one IB course during their time at GS.** Students can earn IB certificates by taking individual IB courses alongside other courses, including AP. It’s another way our curriculum can be tailored to your interests and goals.
